SEB

"Verisec's service allows SYSteam to support multiple customers in our authentication service thanks to Freja's support for multiple user repositories. Combined with a flexible service center pricing model the Freja solution fits the needs of a hosted application provider requiring a high degree of security".

-Anne Thorn, CEO at SYSteam Blue AB

BBVA

"No one stands where we do, and we are doing what no one else is. We are building the best digital bank of the 21st century."

- BBVA Chairman & CEO Francisco González

LPSN

"Freja is very intuitive to use ensuring a high user acceptance, critical when implementing any security solution."

Paul Warricker, ICT Security Manager, London Borough of Bexley
